ABOUT THIS EXAMPLE

A Sample Walkthrough

Acme Rewards is a fictional demo app used to show exactly what the app-walkthrough skill produces: a narrated video and this matching PDF, both generated from the same script.json and a handful of screenshots.

- Every screen here is a synthetic mockup — no real company's UI or data
- Same pipeline you'd run on a real app: capture, script, local TTS, Remotion video, styled PDF

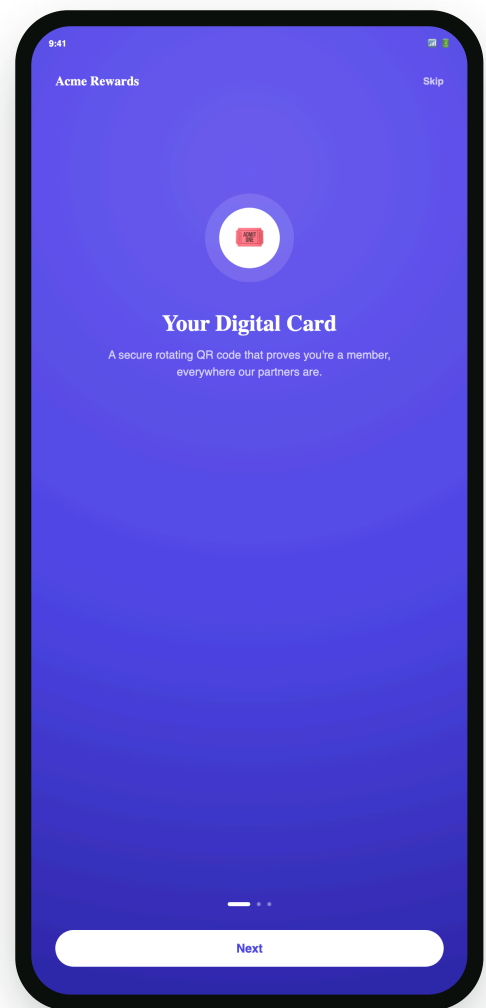

02 / 08

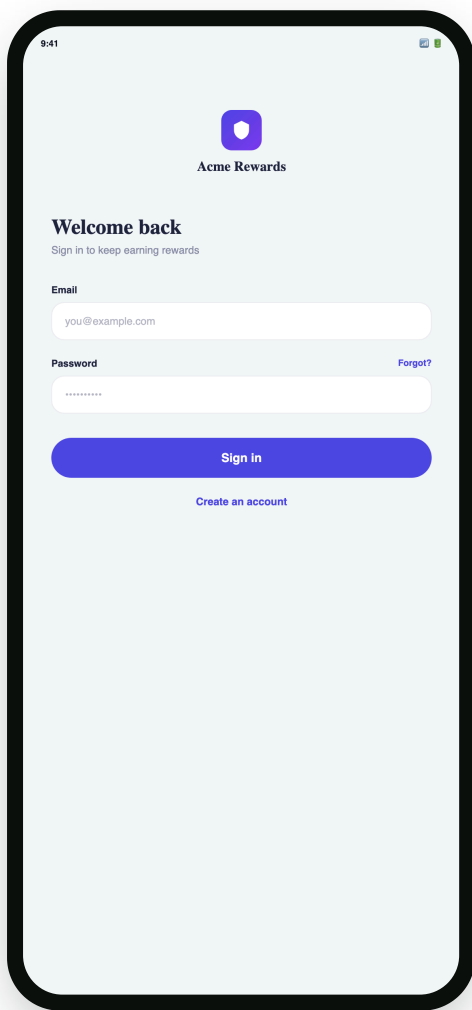

FIRST LAUNCH

Your Digital Card

A short onboarding flow introduces the app's core idea before sign-in is required.

- Skip is available at any point for returning users

03 / 08

AUTHENTICATION

Welcome Back

A lightweight sign-in screen: email, password, and a path to create an account for first-time users.

- Forgot-password recovery available directly on the sign-in screen

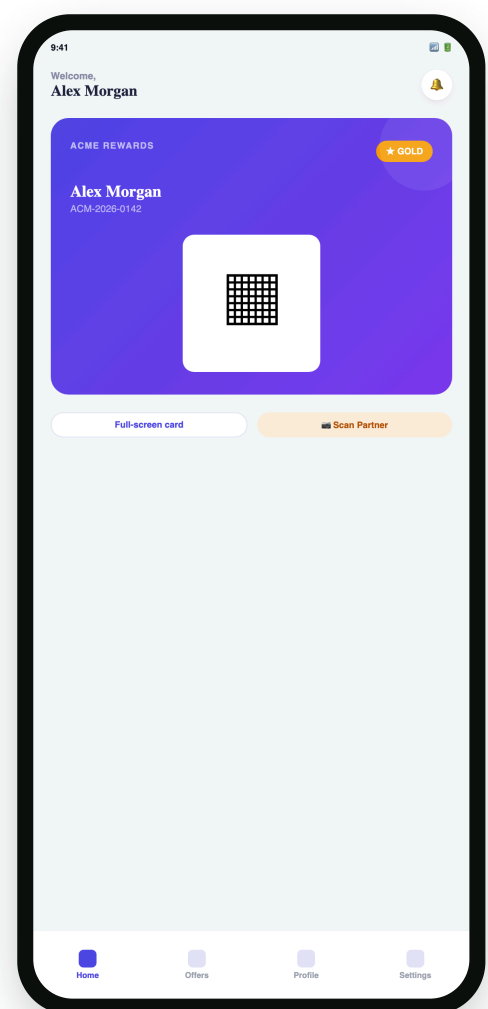

04 / 08

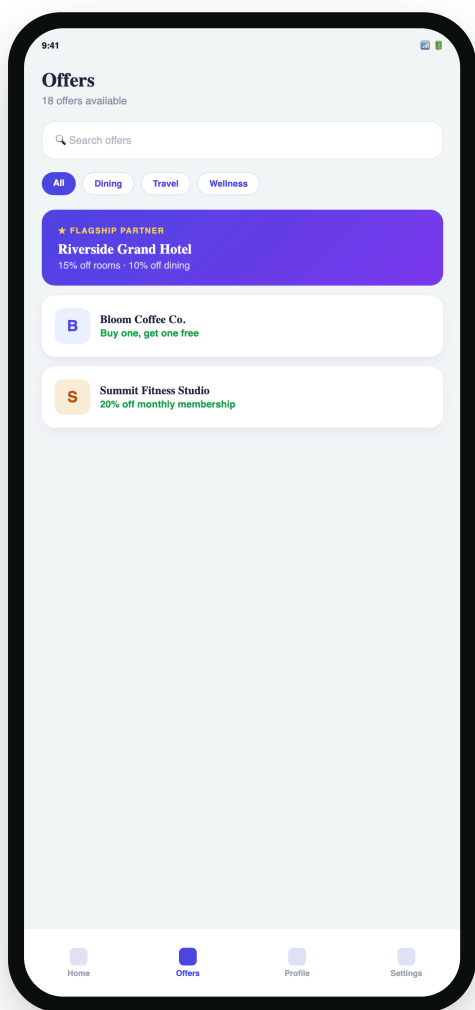

HOME TAB

The Digital Card

The home tab renders the member's digital card with a live QR code and current tier.

- Quick actions for the full-screen card and the partner scanner

05 / 08

OFFERS TAB

Browse Every Offer

A searchable, filterable directory of every active partner discount, with flagship partners pinned to the top.

- Category filters: Dining, Travel, Wellness
- 18 offers in this example

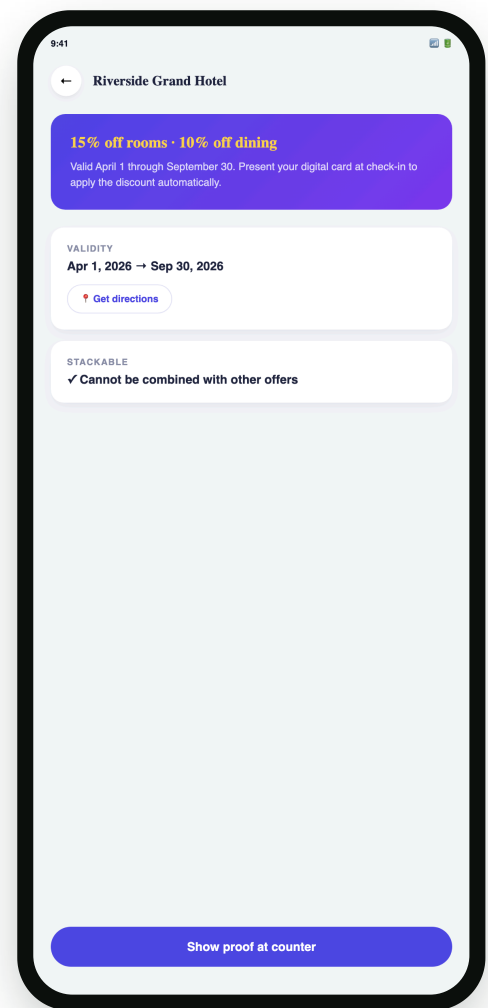

06 / 08

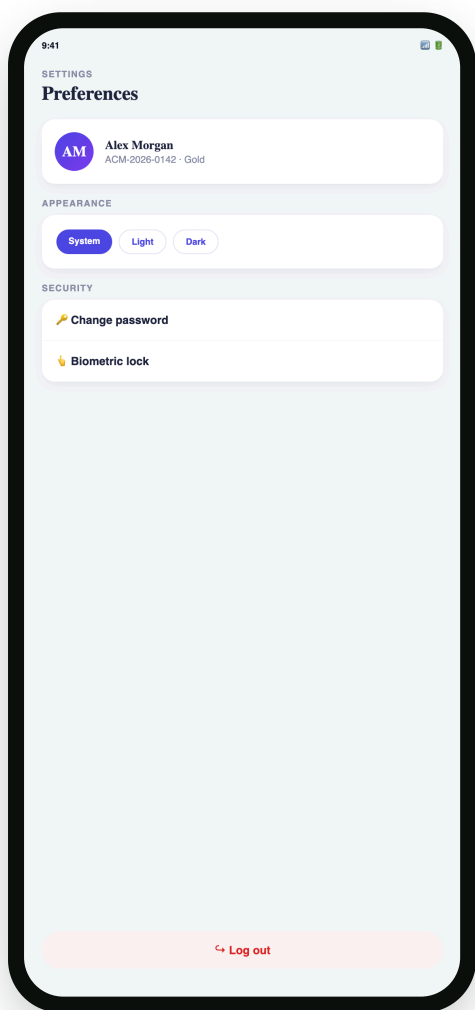

OFFER DETAILS

Every Term, Up Front

Every offer opens into a detail screen spelling out the exact terms before a member commits to a visit.

- Validity window, stackability, and a one-tap proof-at-counter action

07 / 08

SETTINGS TAB

Total Control

Appearance, security, and account controls in one place.

- Theme, password, biometric lock, log out

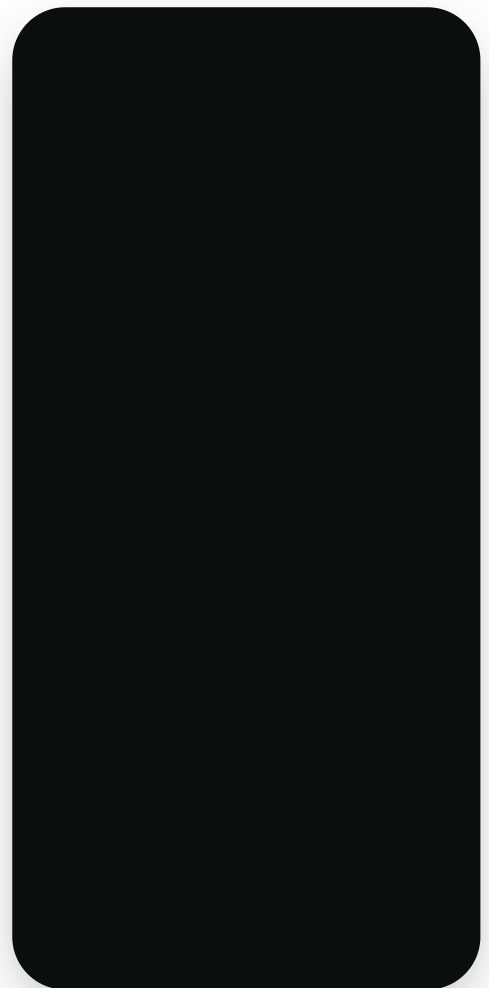

08 / 08

TRY IT YOURSELF

That's the Idea

Point the app-walkthrough skill at your own app to generate the real thing — see the skill's README for setup.

- [github.com](#) — search this repo's name to find the skill source

Thank you

This guide covered every major screen in Acme Rewards, from first launch through everyday use — the digital card, the partner network, profile & history, settings, and the offline-verifiable insurance pass.

EVERY VISIT, REWARDED.
